Mr. Muhl asked what the district did not meet. Mr. Biagetti stated it did not meet the "Emergency Situations." Mr. Mossing stated this would happen if they did not pay their bills because they did not have enough assessments, however the district did not have any financial emergencies and it is good they do not have this item marked.

D. General Manager- Report

Ms. Pollicino provided an overview of the report. She stated on May 10th, a teen resident held a party with an estimated 50 people at Recharge between 10 p.m. and 2 a.m. She noted trash was left in the loft, drivers were out of control and there was vomit on the walls and toilet in the bathroom. There were two toilet paper holders that were taken off the stalls and needed to be replaced. The costs will be \$60 for the three hours it took to clean, \$125 for the

toilet paper holders and \$1,500 to pressure wash the parking lot. She noted the facility is now clean, the toilet paper holders have been replaced, and the teen's amenity privileges have been revoked.

Mr. Muhl asked what the facility's hours are. Ms. Pollicino stated the gym is open from 4 a.m. to midnight. He stated the board needs to talk about changing the hours.

Mr. Hewins stated he does not think changing the hours will prevent things like this happening.

Ms. Pollicino stated she has reached out to the security team to see about changing their cameras. She is looking to receive costs for a new and updated monitoring system and adding a license plate reader to the system.

Ms. Buchanan stated security is exempt from public records, meaning they must hold a closed session when speaking about matters of security. They must add a closed session to the agenda of a meeting.

Ms. Pollicino noted Vesta has been providing Amenity Attendants to watch the areas on busy days.

Ms. Harden stated Vesta has a 24-hour number in the case of emergencies.

Ms. Pollicino continued the overview of her report. She stated the pool shower had a steady leak and was under warranty. However, the manufacturer discontinued the model and sent a different one at no additional cost. She added the playground signs have been updated to reflect the policies and the cost was \$799.29. Recharge received a full pressure was on April 29th and during the clean, water seeped into the second-floor fire panel and set off alarms. This resulted in a full replacement for \$6,587.91. VAK PAK conducted the quarterly maintenance pool inspection on May 2nd, and no issues were noted.

Ms. Pollicino presented the two possible 2026 budget items list on page 170 of the agenda package. The first is a fresh powder coat on the pool furniture tables and end tables for \$3,500 and the second is to change the pool gate to a push button exit for \$4,100. This would prevent residents from using the back gate instead of the front gate when entering the pool. She added she believed the rooftop patio stairs need to be sealed and painted. She asked if they would like to add these to the budget.

Mr. Muhl asked if these will fit into the budget. Mr. Biagetti stated we are almost maxed out for the repairs and maintenance.

4

Cypress Bluff CDD

The board decided to add this into the budget next year.

Ms. Pollicino stated they are in the process of getting the fitness equipment subscription reinstated and it will be done by the next meeting. She added they are in the process to talk to other companies to decide if they want to keep subscription-based fitness equipment.

Ms. Pollicino proceeded with the landscape report. She noted there is an authorization for extra work for a pipe that needs to be fixed, due to not getting enough pressure. She SunSet has performed an inspection and determined it to be the district's irrigation lines. These lines will need to be replaced. She asked for approval to replace the line for \$4,995.

Mr. Biagetti noted they are high on their irrigation budget as well, however there is a landscape contingency. He added this will be necessary for the plant life and there is room in the budget.

On MOTION by Mr. Muhl seconded by Mr. Hewins with all in favor, replacing the District's irrigation lines with SunState for \$4,995, was approved.

Ms. Pollicino stated they have had on-going weeding and trimming at Recharge and along the eTown Parkway and all small weeds have been sprayed with herbicide. COMMUNITY MANAGER REPORT 6/24/25 SUBMITTED BY MARCY POLLICINO

RECHARGE UPDATE:

Incident May 25

One male teenager hopped the main gate at 12:12am and proceeded to open the gate for a teenage girl. The pair then both hopped the pool gate and swam for 45 minutes. According to a post on Facebook, a resident was in the parking lot at this time and called the police. The police arrived as the teenagers were leaving. The police said they were residents and sent them home. See incident report attached.

Incident June 3

Clubhouse attendant on duty became aware of a party scheduled at Recharge for 8:30pm (after pool close). The clubhouse attendant stayed late (until 10pm) to ensure a party was not held. The attendant caught two male teenagers in the pool at 8:25pm and five male teenagers trying to use the rooftop patio at 8:47pm. See incident report attached.

Incident June 8

Teenagers held a party at Recharge starting around 9pm and ending at 10pm. No damage was incurred with the exception of fast food trash left in the parking lot. A minor resident was identified. See incident report attached.

After Hours Emergency Number

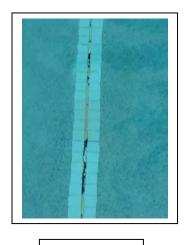

The Vesta Property Services emergency after hours number has been posted in the fitness center. The number is (904)747-0181.

Pool Inspection

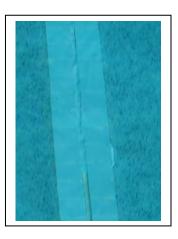

Recharge pool passed the Florida State Health Department inspection on May 16, 2025. See report attached.

Pool Expansion Joints

The Vesta Property Services team patched the expansion joints with pool putty. Cost: \$118

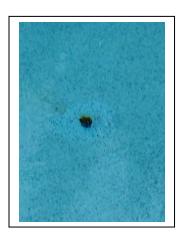

BEFORE

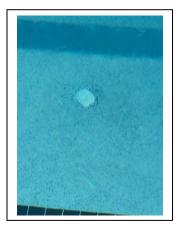

AFTER

Pool Rust

There was rust on the bottom of the pool. Village Pools determined there is no steel protruding from the bottom. Village Pools cleaned the area and patched it with pool putty. The team will monitor to determine if rust comes back. If it does a full drain and repair will be required. If the patch holds Village Pools may be able to place a plaster patch without draining the pool.

eTOWN PARKWAY UPDATE

Cave In

There was a cave in within the landscape median along eTown Parkway in front of the Gate gas station. Mikey White, The PARC Group, sent Vallencourt out to troubleshoot. Vallencourt determined the cave in was not a result of the roadway storm drain infrastructure. After consulting with Sun State, the cave in may have been residual (from the previous cave in at this location). Sun State roped off the area and will be filling with dirt.

Description of Incident: Please be advised one teenage boy hopped the main gate at 12:12am and then proceeded to open the gate for a teenage girl. The two then proceeded to hop over the pool gate. They swam for roughly 45 minutes. According to a post on Facebook, a resident was in the parking lot and called the police. The police arrived at 1:06am when the pair was leaving. The resident (who called the police) commented on Facebook that the police didn't do anything because the kids were residents. The police sent them home.

It is important to note Vesta staff left at midnight.

Also, please note there were multiple cars driving in and out of the parking lot around 10:00-11:45pm last night. Some cars had the music cranked up. The cars didn't stay long.

Also, around 10pm the Vesta staff caught teens hopping the main gate to use the bathroom and sent them away.

Trash was found in the parking lot next day. Trash included vape wrappers, condom, and food wrappers.

Description of Incident: At 7:47pm DeWitt Hughes, Clubhouse Attendant, called Community Manager, Marcy Pollicino, to inform he had encountered a male teenager (who used to be his neighbor) who was being dropped off at Recharge (by his mother) for a pool party that was scheduled for 8:30pm. The teenager informed DeWitt it was on Snapchat there was going to be a pool party at eTown at 8:30pm. DeWitt proceeded to inform him of our policies (no swimming after pool close at 8pm and no parties without renting space; rental slots end at 5:30pm). Marcy asked DeWitt to stay an extra hour to ensure no other teenagers showed up.

At 8:25pm DeWitt caught two male teenagers letting themselves into Recharge and the pool area by reaching their arm/hand to open the gate. VIZpin was not used. DeWitt called Marcy who instructed to remove them from the pool deck and inquire if they were residents. One of the teenagers said he was however, Marcy could not find him in the homeowner profile system; and he did not have VIZpin. The teenager did give a name of a woman who lived in eTown. The teenagers decided to leave. Marcy called the woman who said that was her son. Marcy informed the resident of the incident that happened and said she was more than happy to add him to her profile and give VIZpin access, however he has to understand he cannot go swimming after hours. The mother informed Marcy she would talk to her son and call tomorrow to take care of adding him.

At 8:47pm five non-resident teenagers showed up to hang out on the rooftop patio. DeWitt informed them they are not allowed to do this. The teenagers said they do it all the time. DeWitt explained you have to be a resident to use Recharge. The teenagers left. Marcy asked DeWitt to stay until 10pm to ensure no one else came. DeWitt agreed and all was quiet.

Teenagers came and went until 10pm. The gathering was large scale with an estimated 40-50 in attendance. The minor resident was shown at the party with his friend. The group was on the rooftop patio and at 9:21pm entered the pool deck. No one swam, however the teenagers hung out on the pool deck. Around 10pm the teenagers left. VBR6117 Vitality™ Strength Benches and Racks Flat-Incline-Decline Bench ∭

Working the Angles

Because the back pad of the FID Bench can be adjusted across a 90 degree range between decline and incline, and the seat pad can be inclined across a 20 degree range, exercisers can be comfortably positioned for shoulder press, incline press and many other lifting activities.

Long-lasting Functionality

We put our emphasis on ensuring that the features exercisers value the most deliver long-lasting functionality. The pop-pin adjustments and pivots move easily so the FID Bench can be re-positioned repeatedly and without strain.

The Perfect Companion

The Vitality Series FID Bench is the perfect companion for weight training with Vitality Series storage solutions for dumbbells or kettlebells. In addition, the bench can be paired with the Precor FTS Glide functional training system to increase training variety.

Good Looks for Years to Come

We chose high-quality materials and implemented thoughtful design elements and careful construction to give the Vitality Benches & Racks Line a substantial yet elegant look. Our products keep their premium appearance, feel and functionality for years to come.

Vitality[™] Strength Benches and Racks Storage Solutions ∭

Dumbbells offered in a range of weights set the stage for great exercise variety but can often take up a lot of space. We offer our racks in space-efficient vertical and 3-tier options. Our trays can accommodate round and hex-head dumbbells and have been tested for compatibility with MFitness International, TAG Fitness and Umax[®] Strength brands.

Because you don't get a second chance to make a first impression, we chose high-quality materials and construction so that our

products keep their premium appearance, feel and functionality for years to come.

Hex-head dumbbells rest on high-impact ABS plastic that overlays the powder-coated steel trays to prevent scratches, dents and noise. We pinned the dumbbell saddles to prevent them from rotating and mechanically fastened the rack end caps so they won't fall off.

A written Estimate will be presented for each billable part, accessory, or supplies, and/or labor. The Estimate must be approved by Customer prior to CFP - a.) ordering the part, b.) scheduling service call.

Service Request -

Service Requests must be made in writing by the individual Property Manager or a staff member authorized to make such a request. Service Requests must include all pertinent information related to the machine and its reported issue. Essential information required for timely repair include – identifying the machine by make/model/serial #, and a description of the problem.

Repairs necessitated by casualty, acts of God (unforeseen, naturally occurring events that were unavoidable), voltage aberrations (high or low spikes in electricity to the product), abuse (misuse of product, vandalism, or any act which harms the product in any way), or negligence, are not covered by this agreement but will be provided at Servicer's hourly rate(s) plus parts.
